

Project Information

Project Title:

Overall Description of Project (including specific tasks to be accomplished):

Describe below the deliverables that will be tangible outcomes of your project:

Break down this task into Phases or Milestones, and specify target dates for completion of each [these may be modified, with faculty supervisor approval, as the project proceeds][add as a separate document if needed]:

ITEC Student Outcomes

This project is intended to satisfy the requirements of the ITEC Senior Project course. In so doing, mastery of skills for assessment of the [ITEC Student Outcomes](#) must be demonstrated. Describe how the following skills will be used in this project and/or how they will be demonstrated:

- 1.** Analyze a complex computing problem and apply principles of computing and other relevant discipline to identify solutions:
- 2.** Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- 3.** Communicate effectively in a variety of professional contexts.
- 4.** Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- 5.** Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- 6.** Use systemic approaches to select, develop, apply, integrate, and administer secure computing technologies to accomplish user goals.

Signatures and Approvals

I agree to execute this Senior Project as described above. I acknowledge that failure to complete all contracted aspects will be justification for assignment of an Incomplete or Failing grade.
