

**FOR STUDENTS WITH A FOUR-YEAR, PRE-PROFESSIONAL DEGREE**

This curriculum is for students who hold a four-year Bachelor of Science in Architectural Studies or its equivalent. Students in this curriculum must have at least 126 hours of credit in their undergraduate program. Students who have less than 126 hours of credit will be required to add additional coursework to bring the total of hours earned for the M. Arch. degree to at least 168 hours.

**PROGRAM TOTAL: 42 CREDIT HOURS**

This program is designed for student wishing to pursue the degree as a full-time graduate student. It is possible to pursue the degree at a slower pace, but students are cautioned that course sequencing and prerequisites may mean a delay of a year while waiting for a course to be scheduled again. Graduate students must maintain enrollment in all fall and spring terms until the degree is complete. Students who are out-of-sequence may need to take additional courses to meet this requirement.

To be billed at the online program rate, students must enroll in online sections of the courses. Students who wish to take a course on-campus may do so but will be billed at the appropriate tuition rate for the course.

## ELECTIVES

A number of elective courses have been developed to serve the Master of Architecture program. Students are not limited to taking an architecture elective. Students may complete any elective offered for graduate study at the university. We encourage cross-disciplinary study in areas of interest relevant to the thesis topic selected by the student.

Electives shown here are offered regularly but not every semester or academic year. Check the Schedule of Classes to see which electives are offered in a given semester.

*(All courses below represent 3.0 semester hours.)*

- ARC 502: Architecture Seminar\*
- ARC 503: Environmental Behavior Studies
- ARC 531: Seminar: Architectural
- ARC 571: Architectural Visualization
- PSAS 480: Designing Outdoor Spaces
- ANTH 410K: Ecological Anthropology

\*ARC 502 may be taken as a means of covering specialized instruction in architecture.
