MISSION OF THE SOCIAL WORK PROGRAM

The central mission of Social Work at Southern Illinois University Carbondale is the educational preparation of professional social workers in compliance with CSWE Educational Policy and Accreditation Standards (EPAS) who are capable of delivering social services to meet the human service needs within state, nation, international, and global contexts, with a special focus on rural areas. The organizing principle of Social Work is the enhancement of the quality of life for individuals, families, groups, organizations, and communities, especially for poor and oppressed populations, through the promotion of social and economic justice and human rights. Student learning is based on theories and knowledge and the acquisition of professional values, ethics, and skills, which are necessary for competent social work practice. Special emphasis is given to evidence-based and strength-based practice, especially as it relates to issues of culture and diversity.

MISSION OF THE BACCALAUREATE PROGRAM

The Mission of the Baccalaureate Program is the preparation of professionals with generalist practice skills and knowledge that enable them to engage in ethical, responsible, and self-critical social work practice in public and private social service systems.

ACCREDITATION

Social Work offers a baccalaureate program leading to the Bachelor of Science degree. The BSSW program is fully accredited by the Council on Social Work Education (CSWE). For more information, write or phone:

WELCOME FROM THE OFFICE OF THE DIRECTOR OF THE SCHOOL OF HUMAN SCIENCES

We are pleased that you are interested in pursuing a career in social work at Southern Illinois University at Carbondale. Our program is dedicated to the principle that professional social workers should strive to help improve the lives of individuals through the enhancement of families, groups, and communities. We believe that social workers have a responsibility to promote social justice and opportunity, especially for oppressed and disadvantaged populations.

The graduates of the baccalaureate level program are prepared for generalist practice with skills and knowledge founded on family and community-based practice models derived from social systems theory. While our graduates are the primary staffing resource in social services in the region, they also provide services in the state, nation, and in other countries.

You will find that our faculty has extensive experience as social work practitioners, educators, consultants, agency administrators, and researchers. They are committed to meeting the educational needs of our students in a nurturing environment that promotes personal and professional development.

The School provides leadership in Illinois and the rest of the Lower Mississippi River Delta region in promoting social services in rural settings. This is done in partnership with other universities located in the Delta and with state and regional public and private social service agencies. The Social Work Program has a particular interest in enhancing services for children and families throughout the region. The BSW and MSW Social Work degree programs are currently conditionally accredited by the Council on Social Work Education.

We look forward to having you as a student in our program. We know that you will find it to be a challenging and inspiring experience that will prepare you for a rewarding career in social work.

NASW - CODE OF ETHICS PREAMBLE

The primary mission of the social work profession is to enhance human well-being and help meet the basic human needs of all people, with particular attention to the needs and empowerment of people who are vulnerable, oppressed, and living in poverty. A historic and defining feature of social work is the profession's focus on individual well-being in a social context and the well-being of society. Fundamental to social work is attention to the environmental forces that create, contribute to, and address problems in living.

Social workers promote social justice and social change with and on behalf of clients. "Clients" is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation, administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals' needs and social problems.

The mission of the social work profession is rooted in a set of core values. These core values, embraced by social workers throughout the profession's history, are the foundation of social work's unique purpose and perspective:

- service
- social justice
- dignity and worth of the person
- importance of human relationships
- integrity
- competence

This constellation of core values reflects what is unique to the social work profession. Core values, and the principles that flow from them, must be balanced within the context and complexity of the human experience.

NASW - ETHICAL PRINCIPLES

The following broad ethical principles are based on social work's core values of service, social justice, dignity and worth of the person, importance of human relationships, integrity, and competence. These principles set forth ideals to which all social workers should aspire.

Value: *Service*

Ethical Principle: *Social workers' primary goal is to help people in need and to address social problems*

Social workers elevate service to others above self-interest. Social workers draw on their knowledge, values, and skills to help people in need and to address social problems. Social workers are encouraged to volunteer some portion of their professional skills with no expectation of significant financial return (pro bono service).

Value: *Social Justice*

Ethical Principle: *Social workers challenge social injustice.*

Social workers pursue social change, particularly with and on behalf of vulnerable and oppressed individuals and groups of people. Social workers' social change efforts are focused primarily on issues of poverty, unemployment, discrimination, and other forms of social injustice. These activities seek to promote sensitivity to and knowledge about oppression and cultural and ethnic diversity. Social workers strive to ensure access to needed information, services, and resources; equality of opportunity; and meaningful participation in decision making for all people.

Value: *Dignity and Worth of the Person*

Ethical Principle: *Social workers respect the inherent dignity and worth of the person.*

Social workers treat each person in a caring and respectful fashion, mindful of individual differences and cultural and ethnic diversity. Social workers promote clients' socially responsible self-determination. Social workers seek to enhance clients' capacity and opportunity to change and to address their own needs. Social workers are cognizant of their dual responsibility to clients and to the broader society. They seek to resolve conflicts between clients' interests and the broader society's interests in a socially responsible manner consistent with the values, ethical principles, and ethical standards of the profession.

Value: *Importance of Human Relationships*

Ethical Principle: *Social workers recognize the central importance of human relationships.*

Social workers understand that relationships between and among people are an important vehicle for change. Social workers engage people as partners in the helping process. Social workers seek to strengthen relationships among people in a purposeful effort to promote, restore, maintain, and enhance the well-being of individuals, families, social groups, organizations, and communities.

Value: *Integrity*

Ethical Principle: *Social workers behave in a trustworthy manner.*

Social workers are continually aware of the profession's mission, values, ethical principles, and ethical standards and practice in a manner consistent with them. Social workers act honestly and responsibly and promote ethical practices on the part of the organizations with which they are affiliated.

Value: *Competence*

Ethical Principle: *Social workers practice within their areas of competence and develop and enhance their professional expertise.*

Social workers continually strive to increase their professional knowledge and skills and to apply them in practice. Social workers should aspire to contribute to the knowledge base of the profession.

ADVISEMENT

The social work program at SIUC is accredited by the Council on Social Work Education (CSWE). This means that it has met the high standards of CSWE and prepares students for beginning level careers in the social work field. Toward that end, each social work student, in addition to being advised by the academic advisor, is also advised by a faculty advisor.

The **professional/faculty advisor** is a resource person whom you may consult about issues related to your major and/or your career options. For example, he/she may help you identify career opportunities, discuss issues related to entering a profession or suggest a course that best suits your special interest. Students are strongly encouraged to see their faculty advisor at least once in a semester. Each new student is assigned a faculty advisor at the beginning of their 1st semester in the Social Work program.

The **academic advisor** is a trained advisor who will guide you toward completion of the BSSW requirements. Your advisor will help you monitor your progress toward the fulfillment of the University and Social Work graduation requirements. New freshmen and transfer students, in particular, are strongly encouraged to see their advisor for assistance in adjusting to the University system and/or when they are confused about University rules and procedures. The academic advisor for Social Work is located in Davies Hall Room 111 and can be reached at 618-453-5717 (appointments are required).

A reminder: Students should make an appointment with the academic advisor prior to the advanced registration period. Registration for Spring classes generally opens in mid-to-late October; registration for Summer/Fall classes generally opens the end of March or first of April, so, make your appointment with your advisor well before registration opens.

IMPORTANT NOTE:

Please take the time to learn about your graduation requirements and familiarize yourself with DegreeWorks. Although the academic advisor is there to guide you, **final responsibility regarding the completion of the University and Social Work Major requirements lies with you, the student.**

ADMISSION AND RETENTION

ADMISSION

Students who are currently enrolled at SIUC or former SIUC students in majors other than social work may request admission to Social Work, provided they have an overall grade point average (G.P.A.) of 2.0 or higher.

Transfer students who have completed fewer than 26 credit hours must meet the admissions requirements of beginning freshmen as well as have an overall G.P. A. of 2.0 (4.0 = A), calculated according to SIUC's grading policies and procedures, from all post-secondary institutions attended.

Transfer students who have completed more than 26 credit hours must have an overall transfer G.P.A. of 2.0 (on a 4.0 scale) to be admitted. Students may transfer at any time, but there are advantages in having completed a baccalaureate oriented associate degree program (AA or AS).

RETENTION

Social Work majors **must** maintain a minimum overall G.P.A. of 2.25 (on a 4.0 scale)

Students admitted into the program must achieve at least a grade of "C" in SOCW 275 and SOCW 383 courses **and** maintain at least a 2.25 overall G.P.A. (on a 4.0 scale) in each semester to remain in the program.

Students **must** have an overall G.P.A. of 2.50 (on a 4.0 scale) in core Social Work courses {SOCW 275, 291, 383, 400A, 400B, 401, 402, 411, & 421} to enroll in the Field Practicum course {SOCW 441 & 442}.

SCHOOL OF HUMAN SCIENCES**

GATEKEEPING POLICY PROCESS*

1. Each instructor shall review the gatekeeping policy with regard to every student and fill out the gatekeeping form (attached) for those that do not meet the school's standards.
2. If a student receives a negative mark, the form shall be given to the Retention Committee.
3. The Retention Committee shall review all negative student forms and will follow the following process:
 - a. If a student receives one "Recommended with Reservations": A form letter will be sent to student and a copy placed in the student's file.
 - b. If a student receives one "Not Recommended": A form letter will be sent to the student and a copy placed in the student's file. At this time, the student will meet with the Undergraduate or Graduate Program Director. A contract will be developed by the student and Undergraduate or Graduate Program Director.
 - c. If a student receives two "Not Recommended": The Retention & Dismissal Committee will meet and determine the retention of the student. The Retention Committee will notify the student in writing and a copy of the letter will be placed in the student's file.

The Retention Committee will meet at the end of each semester, review the forms, and will make recommendations. If additional cards are accrued, a letter will be sent to the student and placed in the student's file and a vote will be held by the Retention Committee regarding retention of the student.

The Retention Committee will consist of the Undergraduate Program Director; two additional faculty members; and three students (selected by the students). The Retention Committee must also have minority representation.

The faculty member responsible for giving the one "Not Recommended" form should be present at the review with the Undergraduate Program Director.

Student receiving the negative comment should be present at the Retention Committee meeting where the future of the student's retention in the program is being discussed.

*The following recommendations were adopted (December 1999) by the students and approved by the faculty, February 2000.

SOCIAL WORK COURSES

275-3 Social Welfare as a Social Institution Explores the interdependence of social, cultural, political and economic factors in the history and practice of social welfare with special reference to development of the social work profession. Focus on service integration and coordination in community-based delivery systems in rural areas, especially for poor and oppressed populations. Minimum grade "C" required.

291-3 Social Services and Minority Groups Exploration of the needs, experiences and attitudes of minority populations pertaining to delivery of social services in rural settings. Emphasis on relationship of cultural diversity to practice, policy and research content.

295 (1 to 6) Field Service Practicum in Southern Illinois This course is designed for freshman and sophomores who are volunteering service to community, social service, or health agencies in southern Illinois. Credit based upon time spent in direct service. Mandatory Pass/Fail.

350 ABC (1 to 6) Social Work Special Issues (A) Practice (B) Policy and Planning (C) Public Welfare Services. Topics will be selected from these three areas. Limited to no more than three (3) credit hours per semester. May be repeated as topic varies up to six semester hours. Junior standing or higher.

361-3 Child and Family Services Problems of child-parent relationships and difficulties in social functioning of children and adolescents. Adoptions, foster home and institutional placements, protective services. Focus on services in rural areas. Junior standing or higher.

363-3 Social Work with the Aged Basic concepts of social work methods applied to the older adult group. Characteristics of the aged group, its needs and potentials. Social trends and institutions involved in services to the aged. Junior standing or higher.

366-3 Public Policies and Programs for the Aged An introduction to public policy, program and planning for the aged. A framework is utilized for analyzing policy issues, programs, and research in such areas as income maintenance, long term care, transportation, leisure time, housing and social services in order to aid present and future practitioners who work with the aged. Junior standing or higher.

383-3 Social Work Interviewing and Interpersonal Skills This is an introductory course in interpersonal skills in the social services in a systems context. Intake, interviewing and recording are emphasized. Focus on practice in multi-service settings. Prerequisite: PSYC 102. Restricted to Social Work Majors only with Junior standing or higher. Minimum grade "C" required.

396 (1 to 3) Readings in Social Work Varying topics not ordinarily covered in depth in regular courses and of specific interest to advanced students. Special approval needed from the instructor and School Director.

397-3 Statistics for Social Work Statistical methods as applied to social work, focusing on basic descriptive and inferential statistics and their relationship to social work research. Students are provided with statistical methods and models that are applicable to social work research. Lastly, students are prepared to critically analyze published research and apply statistical principles in their own research. Restricted to Social Work Majors only with Junior standing or higher.

400A-3 Human Behavior and the Social Environment for Social Work Practice I The first of two courses that examine the normal and dysfunctional life span development from a systems theory perspective. The first course focuses on the behavior of individuals and families. It also explores the impact of the environment and the implications for generalist practice with rural populations. Not for graduate credit. Prerequisite: PLB 115 or ZOOL 115 or ANTH 240A and SOC 108. Restricted to Social Work Majors only with Junior standing or higher.

400B-3 Human Behavior and the Social Environment for Social Work Practice II Continuation of 400A. A systems perspective is used to examine the theoretical and practice implications of the life cycle as they relate to the development of groups, organizations and communities in rural settings. The course links content to generalist practice skills taught in 401 and 402. Not for graduate credit. Prerequisite: PLB 115 or ZOOL 115 or ANTH 240A and SOC 108. Restricted to Social Work Majors only with Junior standing or higher.

401-3 Generalist Practice in Social Work I The first of two courses, which prepares for generalist practice. Focuses on intervention skills with individuals and families at a beginning level of proficiency. Emphasis on assessment and treatment in multi-service agencies in rural settings. Not for graduate credit. Prerequisite: SOCW 275, SOCW 383. Restricted to Social Work Majors only with Junior standing or higher.

402-3 Generalist Practice in Social Work II Continuation of SOCW 401. Generalist practice skills and knowledge with groups, organizations and communities at beginning level of proficiency. Emphasis on assessment and treatment in multi-service agencies in rural settings. Not for graduate credit. Prerequisite: SOCW 401. Restricted to Social Work Majors only with Junior standing or higher.

411-3 Research Methods Designing Performance Outcomes in Social Work Practice. Social work research in generalist practice. Examines the principles, concepts and methods of scientific investigation in terms of its application to social work research and practices. Provides basic skills for self-assessment research in field practicum in spring semester. Not for graduate credit. Prerequisite: an introduction to statistics course. Restricted to Social Work Majors only with Junior standing or higher.

421-3 Social Welfare Policy In-depth examination of current social welfare policy and program issues in the context of social welfare history in the United States. Utilizes a systematic analytical framework for critical study of multiple causal factors (socio-economic, cultural, governmental structure) . Prerequisites: ECON 113; POLS 114, & SOCW 275. Not for graduate credit. Restricted to Social Work Majors only with Junior standing or higher.

441-9 Field Practicum Students are expected to complete 420 hours in an approved social service agency during the course of the semester. Utilizes learning contracts with goals, objectives and evaluation to integrate course content into practice, including practice self-assessment. Not for graduate credit . Mandatory Pass/Fail. BACCALAUREATE PORTFOLIO PROJECT

During the last semester of your senior year, you will be required to present a Baccalaureate Portfolio. This Portfolio is a multidimensional tool intended to present a portrait of you as a professional in your chosen field. Items that exhibit knowledge, skills, values, and achievements are purposefully collected and organized to show your competencies as a social worker and your understanding of the Baccalaureate program competencies.

The Portfolio Project is designed to highlight critical thinking and self-assessment skills. It provides an opportunity for you to reflect on your education, practice and volunteer experiences and integrate them with your personal goals and those of the professor of Social Work. It also serves to demonstrate your achievement of professional writing skills.

The Portfolio should be organized around the demonstration that you have achieved knowledge, skills, and values in each of the nine undergraduate program competencies:

UNDERGRADUATE PROGRAM OBJECTIVES

Objective I: Values and Ethics

Understand a professional foundation which builds upon a liberal arts background, includes the values and ethics of the social work profession and interprets the history and philosophy of social work as preparation for entry level social work practice within contemporary society.

Objective II: Reciprocal Interactions between People and Their Environment

Apply theoretical and practical knowledge consistent with beginning generalist social work practice within organizations and service delivery systems that enhances the reciprocal interaction between people and their environment based on the ecological theoretical perspective and social systems approach and to seek change as needed.

Objective III: Intervening

Apply a foundation of knowledge and generalist practice skills for intervening at appropriate systems levels in the human service delivery system in the rural, urban, and on the international level as a mechanism for enhancing the problem-solving abilities of individuals, families, groups and organizations using social work value base.

Objective IV: Evidence-Based Practice

Evaluate programs and one's own practice as well as demonstrate a beginning level of understanding of and appreciation for evidence-based practice using research methods.

Objective V: Policy Analysis

Understanding the mechanisms of discrimination and oppression in order to analyze current policy, and influence and formulate future policy aimed at promoting human rights, social and economic justice.

Objective VI: Diverse and Often Under-Represented Populations

Practice without discrimination and apply strategies of advocacy with the skills necessary for intervention with diverse and often under-represented populations; practice with respect related to clients' age, class, color, culture, ability, ethnicity, family structure, gender, sex, sexual orientation, marital status, national origin, race and religion.

Objective VII: Social Work Practice Skills

Use theory, knowledge, and empirical evidence to implement basic social work practice skills with understanding of individual behavior and development across the lifespan .

Objective VIII: Critical Thinking and Communication Skills

Demonstrate the professional use of self through critical thinking and communications skills which target various client populations, colleagues and communities within the context of social work practice.

Objective IX: Supervision and Consultation

Use supervision and consultation to enhance one's social work practice.

In addition to items such as those listed above, the Project Portfolio must include a **NARRATIVE SELF-ANALYSIS** paper in which you evaluate your progress toward achieving professional knowledge, skills and values in the Social Work arena.

Outline for Self-Assessment Portfolio Section

The self-assessment should be 2 pages and should address the following outline:

Section 1: Short autobiographical introduction (where did you start?)

Section 2: Summary of the most important social work content that you have added to your social work *tool box*. (Strength development)

Section 3: How have you learned to evaluate your practice?

NOTE: *Beginning your junior year, it is recommended that you save all completed course work. This will help when you begin to compile your Baccalaureate Portfolio.*

PROCEDURES FOR OBTAINING AN UNDERGRADUATE FIELD PLACEMENT*

* To enter the Field Practicum, students must be a social work major with an overall 2.25 G.P.A. and a 2.50 G.P. A. in the core social work classes: SOCW 275, 291, 383, 400A, 400B, 401,402,411, and 421.

FIELD PRACTICUM

The Field Practicum is designed to provide students with an opportunity to apply theoretical knowledge to practice situations in a purposeful way within the four broad objectives of the Baccalaureate Field Instruction Program which are to increase students' opportunities to:

- I Function Effectively within a Professional Context.
- II Function Effectively within an Organizational Context.
- III Function Effectively Utilizing Knowledge Directed Practice Skills.
- IV Function Effectively within an Evaluative Context.

One of the most important courses in the curriculum is the field experience course:

SOCW 441- Field Practicum (9 credit hours)

SOCW 442 - Field Practicum Seminar {3 credit hours)

In field placement, students are expected to spend 420 hours per semester, under appropriate supervision, in a social work agency mutually agreed upon by the student and the Field Coordinator. Decisions regarding field placement are made in a series of pre-placement seminars conducted in the semester prior to placement. Additionally, students attend a mandatory weekly seminar (SOCW 442) which meets on campus.

Typical undergraduate student field placements include such agencies as the Illinois Dept. of Children & Family Services, The Women's Center, Centerstone, River to River Residential Corp., Shawnee Health Service, and local community mental health agencies.

Social Work requires block field placements for fulfilling the required credits of SOCW 441 & SOCW 442.

Block placement means full-time field work in an approved agency with concurrent field work seminar, which is done during the last semester of undergraduate work toward completion of a B.S. in Social Work.

NOTE: SOCW 411- Methods of Social Research cannot be taken concurrently with field placement

UNDERGRADUATE FIELD PLACEMENT

When eligibility requirements for field practicum are met:

- 1) **All** students wishing to enter field placement are required to attend pre-placement seminars which are organized by the Undergraduate Field Coordinator and are held a **semester prior** to the field practicum.

Announcements regarding the pre-placements seminars are posted in the Social Work Student Lounge, at the Office of Student Services, and in the hallway outside the Social Work reception/main office.

Students who **fail** to attend these seminars **will not** be allowed to enter field

ro

- 2) Students are responsible for calling the prospective approved agency to set up an appointment for an interview following the pre-placements seminars. If that placement does not work out, the student may call one of two identified alternate placements.

ro

- 3) After the student has been accepted by the agency for placement, the student must return the signed **Field Learning Center Placement Agreement** to the Undergraduate Field Coordinator by a specified deadline.

Work times are to be negotiated by the student and the agency before signing the Agreement Form.

CRITERIA FOR ADMISSIONS TO ADVANCED M.S.W. PROGRAM

Applicants who wish to be considered for advanced standing must meet the following criteria:

B.S. Degree in Social Work from an **accredited** program

G.P.A. of at least 3.0 on a 4.0 scale in the junior and senior years of undergraduate study (last 60 credit hours of graded undergraduate work) excluding experiential and field learning.

Consideration will be given to applicants with post BSSW paid experience in a social work position

One academic reference

One reference from the most recent employment or a general reference

Field reference from BSW program

Personal statement

A standardized test score, such as the GRE, is not required for admissions, however, students applying for a graduate assistantship will be required to have an official GRE score on file in Social Work.

International students must have a TOEFL score of 550 (paper); 213 (computer); 80 (internet) or above. The IELTS exam is also acceptable (a minimum score of 6.5).

Completion of a general biology course (PLB 115/ ZOO 115) and general statistics (SOCW 397, SOC 308, EPSY 402, MATH 282 or any approved basic statistics course) are required.

Applicants admitted for either the **regular two-year program** or for the **advanced standing program** may be required to take additional courses as a condition of admission

All applicants interested in the School Social Work Endorsement, **must** complete SPED 300 or 420 **before** starting their graduate program.

CRITERIA FOR ADMISSIONS TO ADVANCED M.S.W. PROGRAM

A reduced-load QIQgram is available for a limited number of students with or without a B.S. degree in Social Work, who are either fully employed or prefer to take fewer than 3 courses per semesters of full-time residency as defined by the University (E.G., Fall-Spring, Spring-Summer). Entry is in the Fall semester for students without a B.S. degree in Social Work and in the Summer for students with a B.S. degree in Social Work from an accredited program.

Requests to change from full-time to full-time reduced-load status requires prior approval of the Graduate Program Director.

Documented potential for the profession of social work is considered a part of the admissions criteria, which may also include an interview prior to acceptance.

Each application will be individually reviewed. Please, note that meeting all stated criteria will **not automatically guarantee admission to the school.**

Please check with the Graduate Program Director for questions on the MSW Program

APPLICATION DEADLINES TO THE MSW PROGRAM:

Early Admission (Spring start)- Deadline October 31st
Advanced Standing (Summer start) - Deadline February 15th
Regular 2 Year Program (Fall start) - Deadline March 15th
Late Applications/Waitlists All Programs - Deadline April 15th

LICENSING AND CLASSIFICATION

Illinois statute requires that any person engaged as a social worker (except if employed by the U.S. government or in some cases by the State of Illinois) must be licensed. No person may represent her/himself as a *licensed social worker* or *licensed clinical social worker* without obtaining the proper license.

QUALIFICATIONS

There are two levels of licensure in Illinois: Licensed Social Worker (LSW) and Licensed Clinical Social Worker (LCSW).

1. **Licensed Social Worker:** LSW's are authorized to practice social work which includes social services to individuals, groups, or communities in any one or more of the fields of social casework, social group work, community organization for social welfare, social work research, social welfare administration, or social work education. LSW's may engage in clinical social work practice, as it is not conducted in an independent practice as defined by law. REQUIREMENTS:
 - a. A degree from a graduate program of social work approved by the Illinois Department of Professional Regulation (IDPR) and successful completion of the examination as authorized by the Department; OR:
 - b. A degree in social work from an undergraduate program approved by IDPR, AND successful completion of at least 3 years of supervised professional experience AND successful completion of the examination as authorized by the Department.

2. **Licensed Clinical Social Worker:** LSCW's are authorized to independently practice clinical social work in Illinois under the auspices of an employer or in private practice. REQUIREMENTS:
 - a. A master's degree in social work from an approved program and successful completion of at least 3000 hours of satisfactory, supervised clinical professional experience and successful completion of the examination for the practice of clinical social work as authorized by the Department; OR:
 - b. A doctorate degree in social work from an approved program and completion of at least 2000 hours of satisfactory, supervised clinical professional experience subsequent to the degree, and successful completion of the examination for the practice of clinical social work as authorized by the Department.

FAQ ON LICENSING

Q. What do I have to do to become licensed?

A. To begin the licensure application process, you must submit the completed application form, required supporting documents, and appropriate fees. Detailed licensure requirements can be accessed by clicking on the **Acts and Rules** area located on the right side of the home page. Application packet instructions also contain specific requirements for obtaining a license and may be accessed by clicking on **Applications/Forms**.

Q. How do I request an application?

A. You may download and print an application packet from the **Applications/Forms** section of the web site. To access the application packets, click on the appropriate profession name from the alphabetical listing of professions.

Q. When and where are the exams given?

A. The State of Illinois uses examinations developed by the Association of Social Work Boards (ASWB): THE Intermediate examination for LSW's and the Clinical examination for LCSW's. Tests are administered at sites throughout the state utilizing a computer touch screen. Specific test dates are contained in the application package provided by the Department. Application packets may be downloaded from the Website.

Q. What can I expect at the examination?

A. Applications for examination are screened to determine eligibility based on the education and experience of the applicant. Eligible candidates are scheduled to take the proper examination. Candidates passing the examination and meeting all other requirements for licensure are then licensed by the Department. Each examination is graded immediately following completion and the participant informed of the results on-site.

SCHOLARSHIPS AND AWARDS

SIUC Scholarships

At Southern Illinois University Carbondale, we recognize the importance of a quality education and are dedicated to helping you find a way to achieve your higher education goals.

- SIUC awards more than 10 million dollars in scholarships to undergraduate students each year.
- More than 6 million dollars is awarded to new students each year.
- More than 2,500 incoming students are awarded scholarships each year through Southern Illinois University's Academic Scholarship Office.

Scholarship eligibility is dependent on admissions to SIUC, so apply now to get started. International Students can also obtain scholarship information through International Students and Scholars. For more information and to access the online applications, visit: <http://scholarships.siu.edu/>

SIUC Honors Day

Each spring a Scholastic Honors Day convocation is held to honor students exhibiting high scholastic achievement. Qualification for recognition is determined at the end of the third week of the Spring semester. All students who have maintained a cumulative G.P.A. of 3.50 (on a 4.0 scale) or higher, and who have been full-time students during the entire academic year, are honored at this time. A 3.50 G.P.A. is required for all work taken at SIUC, and, in the case of - transfer students, the cumulative average must also be at least a 3.50.

A variety of professional, departmental, and fraternal honorary organizations offer recognition and membership based upon scholastic achievement. Election or selection to most of these organizations is noted at the Scholastic Honors Day ceremonies.

UNIVERSITY POLICIES AND PROCEDURES

COLLEGE CREDIT BY EXAMINATION

Proficiency-Students who believe that they have a mastery of certain subject areas do not need to repeat the content . All University Core Curriculum Courses are available for proficiency testing. Students who believe that they are qualified for the proficiency examination should contact Testing Services.

CLEP: College Level Examination Program - Students may apply for credit that will substitute for University Core Curriculum Courses. Prior to the recording of CLEP credit on the student's transcript, the student must earn 12 credit hours of credit of grade "C" or higher in residence at SIUC.

CLEP is recommended for those with ACT composite scores of 26 (85th to 90th percentile) or higher. CLEP exams must be taken **prior** to taking college level work in the areas included in the exam. Credit is awarded at SIUC for Natural Sciences, Social Sciences, Humanities, Mathematics, and English Composition with essay, and Foreign Languages.

For more information on either of the above and for scheduling testing, contact:

TRANSFER CREDIT

Social Work follows the University policies and procedures for granting transfer credits. For more information, please visit Transfer Student Services at: <http://transfer.siu.edu/>

Courses transferred from CSWE accredited programs are accepted for transfer credit upon evaluation by the Undergraduate Program Director and the Director of Social Work. It is the student's responsibility to provide course syllabi and additional documentation as requested for any course to be reviewed .

CREDIT FOR LIFE EXPERIENCE AND PREVIOUS WORK EXPERIENCE

The BSSW Program **does not grant academic credit for previous work or life experience**. No core social work course may be waived. Each social work student must successfully complete all professional foundation courses and the field practicum, regardless of prior life or work experience.

REGISTRATION

After you and your advisor have selected classes, you will register for classes via online registration. This will secure your enrollment in specific course sections. All students will need a Registration User Number (RUN) before they can register for classes.

Mere attendance does not constitute registration in a class, nor will attendance in a class for which a student is not registered be a basis for asking that a program change be approved permitting registration in that class. Students should complete the registration process before classes begin.

Schedule of Classes is available to you online in SalukiNet at the following address under "**Registration Quick Links**": <http://salukinet.siu.edu>

Advanced Registration takes place during the last 8 weeks of the preceding semester and requires no prepayment to the Bursar . Generally, registration for Spring classes opens mid-to-late October and registration for Summer & Fall opens the end of March/first of April.

Late Registration takes place during the first week of classes; course can still be adjusted online, however, a late registration fee is assessed.

Final Registration occurs during the second week of classes and requires signatures of the course Instructor and the Department Chair/Director on a "closed class card - late entry permit". It is the student's responsibility to request permission to enter the course late and obtain the necessary signatures. Once completed, the form should be returned to the academic advisor for processing.

Adding a Class or Adjusting a Schedule - please check with your academic advisor prior to making any changes to your schedule to ensure these changes will not jeopardize your planned graduation date.

For more information regarding registration and other important FAQ's, visit the Registrar at:
<http://registrar.siu.edu/student/index.html>

ERROR MESSAGES ON REGISTRATION

If you receive an error message when attempting to register for a class, please note the exact error message received and contact your academic advisor for assistance.

Some courses are restricted to specific populations or require prerequisites. You may need to request permission from the Instructor and/or Department to access these restricted courses. Check with your academic advisor to see if you qualify.

Some sections of courses may have reached their maximum seat capacity and are "CLOSED" to further registration (denoted with a "C" in the Schedule of Classes in SalukiNet). Some instructors will take on a few overload students, so check with your academic advisor for instructions on how to obtain permission into a closed class.

ADDS|DROPS

You may drop a semester length course any time within the first 2 weeks of the semester for a full refund and not receive a grade. Students may drop a course after the deadline and receive a "W" grade, however, **penalties do exist** and this request must be completed by your academic advisor. Please check with your advisor for the deadlines/procedures for dropping a class or withdrawing from the University.

DEADLINE DATES		
If classes meet for...	Deadline to withdraw for refund...	Final deadline to withdraw...
13-16 weeks	2 nd week	10 th week
9-12 weeks	2 nd week	8 th week
8 weeks	2 nd week	5 th week
7 weeks	1 st week	4 th week
4-6 weeks	1 st week	3 rd week
2-3 weeks	1 st day	pt week
Less than 2 weeks	1 st day	2 ⁿ d day

Note: Ceasing to attend a course does not automatically remove that student from the course requirements and may also affect a student's financial aid eligibility. The WF counts as an F in the calculation of the GPA. Students who drop courses after the full refund deadline but remain enrolled in the University will not receive any refund. Please contact your academic advisor prior to making any changes to your schedule.

WITHDRAWAL

Students who officially register for a session, may not withdraw merely by the stopping of attendance. An official withdrawal form needs to be initiated by the student and processed by the University.

Withdrawal from the University is a serious decision, which, in many cases, affects financial assistance status, housing contracts, and academic records. Students registered for academic work must obtain a withdrawal if they contemplate leaving the University. If a housing contract has been purchased, the student must contact University Housing to cancel the contract.

There are restrictions on withdrawals. A withdrawal will not be issued beyond the 10th week of the semester, unless the reasons for the withdrawal are beyond the student's control and verified in writing. **Warning:** if a student obtains a withdrawal after the 100% refund period and is receiving financial assistance, the student may be in violation of the Satisfactory Progress for Financial Assistance policy since no academic credit will be earned for the semester. Please review the Undergraduate Catalog or talk with your academic advisor for information on withdrawing from the University or for dropping classes, so as not to negatively affect your future financial aid options.

REPEAT POLICY

Effective for courses taken Summer 2013, or later, an undergraduate student may, for the purpose of raising a grade, enroll in a course for credit no more than two times (two total enrollments) unless otherwise noted in the course description. For students receiving a letter grade of *A*, *B*, *C*, *D*, or *F*, the course repetition must occur at Southern Illinois University Carbondale. Only the most recent (last) grade will be calculated in the overall GPA and count toward hours earned, however, it will not remove the original grade from your transcripts.

Overrides are required to register for a repeat course; therefore, you will need to speak with your academic advisor in order to repeat a course.

Students seeking to repeat a course a second time (third enrollment) must obtain permission from the Office of the Provost to allow the student to register in the course. Please confer with your academic advisor in order to proceed.

INCOMPLETE GRADE

Incompletes are given at the discretion of the Instructor when there are valid reasons why the student cannot complete the course work in a timely manner. For an Instructor to award an incomplete, she/he must receive from the student, written evidence that an emergency has occurred, which prevents the student from completing the course work. Incompletes are not given simply because the student failed to complete the coursework as assigned. **The student must not be failing the class at the time the incomplete is granted.**

An *INC* must be changed to a completed grade within a time-period designated by the instructor-subject to University policy on the maximum for this time-period - or *graduation*, whichever occurs first. Should the student fail to complete the course within the time-period designated, the incomplete will be converted to a grade of *F* and such grade will be computed in the student's grade point average.

Effective for courses taken Summer 2013 or later and assigned a grade of *INC*, the maximum time period noted above for undergraduate students, (before the *INC* is converted to an *F*) is set at one full semester from the close of the term in which the course was taken (or the next semester that course is offered).

Students should not re-register for courses in which an *INC* has been assigned with the intent of changing the *INC* grade. Re-registration will not prevent the *INC* from being changed to an *F*.

NOTE: Graduating seniors and their instructors should avoid *INC* grades during the student's final semester. An *INC* could delay the student's graduation or, in the case of a course not required for the degree, turn immediately and permanently into an *F*.

ACADEMIC DISHONESTY

Academic dishonesty is defined here as cheating and/or plagiarism. Cheating and plagiarism are unethical and unacceptable practices in any profession, especially social work. Cheating includes illegal obtaining of tests or answer sheets, taking an exam for another student, copying answers on exams from another student, providing another student with an essay or research paper that the student submits as his/her

own work. Plagiarism includes submitting someone else's work as one's own, copying the work of another author and presenting it as one's own, not documenting the bibliographical sources one uses to support his/her own ideas, Academic dishonesty may result in failure on the particular assignment, a lower grade, an "F" grade in the course, suspension or dismissal from Social Work and the University.

ATTENDANCE

Students are expected to attend all classes. Instructors may excuse students from classes for valid reasons. Instructors may reduce points for unexcused absences or they may give points for class attendance and/or participation. Each course outline will explain the instructor's attendance policy.

GRADUATION REQUIREMENTS

Graduation clearance is completed by the academic advisor. This clearance evaluates all of the coursework the student has completed to that date and lists the courses the student still has to complete in order to complete graduation requirements on time for their anticipated graduation date. **The responsibility for completion of all graduation requirements belongs with the student.** Therefore, it is highly suggested the student request a pre-graduation check from their academic advisor prior to the beginning of their senior year so they know upfront what is needed for completion .

MINIMUM REQUIREMENTS FOR BACHELOR OF SCIENCE DEGREE*

Total Hours: 120 Semester Hours

Residency Requirement: Last 30 Semester Hours OR Total of any 90 Semester Hours

Senior Institution Hours: 42 Semester Hours at Senior (4-year) Institution

Grade Point Average: 2.25 overall GPA **and** 2.50 overall GPA in social work core courses

*** NOTE: Please be aware that these are the MINIMUM hours and GPA required by SIU for graduation. Be sure to check with your academic advisor regarding specific requirements for your major. Many majors have different GPA requirements. This should be noted on your curriculum guide, the undergraduate catalog, and/or you may ask your academic advisor.**

UNDERGRADUATE STUDENT GRIEVANCE POLICY

Student grievances are initiated either in Social Work or in the School of Human Sciences Student Services office, depending on the nature of the complaint .

- The first step for the student who has a concern or complain is to meet with the instructor of the course in which the concern/complaint lies to see if a resolution can be made.
- If the concern/complaint was not resolved with the instructor, the student should then take the concern/complaint to the Undergraduate Program Director to seek advice and resolution.
- If the student believes a grievance is required, they initiate such a grievance with the Director of Social Work and the School of Human Sciences. The Director is responsible for hearing complaints relating to such things as grades, course work, academic dishonesty, discrimination and admission to and/or retention in the program.

If a student wishes to appeal the decision of the Director, he/she contacts the Associate Dean for Academic and Student Affairs who explains the processes with the Student Grievance Procedure. The Student Conduct Code and the [undergraduate catalog](#) provide guidance on policy.

SALUKI CARES

Purpose:

The purpose of Saluki Cares is to develop, facilitate and coordinate a university-wide program of care and support for students in distress. By working closely with faculty, staff, students and their families, SIUC will continue to display a culture of care and demonstrate to our students and their families that they are an important part of the community.

Saluki Cares is an early alert initiative composed of professionals from different areas of campus life who deal with students on a regular basis: Academic Support, Academic Affairs/ Faculty, Enrollment Management, Student Life & Intercultural Relations, New Student Programs, and others. All concerns remain confidential.

Referrals are made from faculty, staff, parents, other students, or by the student him/herself. The Saluki Cares team can help students with issues surrounding, but not limited, to:

- deaths (student/family)
- extended illnesses
- financial stress
- adjustment issues
- class attendance problems
- homesickness
- and other general signs of stress
